

LATRECHE BRAHIM

AI engineer

m.commentateur@gmail.com +213559716567 Ghardaia,Algeria

SUMMARY

As a passionate developer with a strong focus on creating innovative applications and advancing artificial intelligence solutions, I am eager to contribute my skills to your dynamic team. My commitment to excellence and continuous learning drives me to push the boundaries of technology. I am excited about the opportunity to collaborate with like-minded professionals and make a meaningful impact in the field of AI development. Let's build the future together!

SKILLS

Languages & Frameworks:	Laravle, Flutter, PHP, DART, Python , HTML, JavaScript, CSS,
Database:	MongoDB, XAMPP ,JSON, XML,
ui & ux design:	Figma , Canva, Stitch,
AI Agentic & Tools:	VS Code, Postman, Claude Code, Gemini CLI,
AI Tools:	Prolog, PyTorch, TensorFlow, Keras, Scikit-Learn, NumPy,

EXPERIENCE

- Developing applications.....Jan 2021 — Current
- Hospital App: Built a Flutter/Laravel management app for patient registration and doctor scheduling.
 - Social Media Backend: Developed a PHP/Laravel server using MVC architecture to manage platform data.
 - Database Management: Used MySQL for secure relational records and MongoDB for unstructured JSON posts.
 - Security & Logic: Implemented role-based authentication and custom controllers to route user data securely.
- Developing artificial intelligence applications.....Nov 2024 — Current
- Model Training & Deployment: Engineered and trained machine learning models using frameworks like TensorFlow or PyTorch.
 - Data Pipeline Engineering: Built scalable data pipelines to clean, preprocess, and structure large datasets for model training.
 - API Integration: Developed and integrated RESTful APIs to connect AI model outputs into web and mobile applications.
 - Performance Optimization: Optimized model inference speeds and accuracy through hyperparameter tuning and model pruning.

EDUCATION

- University of Ghardaia.....Sep 2021 — Jun 2026
- Graduated with License, Computer systems, 2024
 - Graduated with Master, Intelligent systems for knowledge extraction, 2026

LANGUAGES

- Arab: Native / Bilingual Proficiency
- English: Professional Working Proficiency
- French: Intermediate
